

Quareia The Apprentice: Book One

The curriculum of Quareia takes a magical apprentice from the beginning of magic to the level of adeptship and beyond in a long and detailed training course. Each book of lessons builds upon the ones before it, so we suggest that you work with the books in sequence. The first section of the training, the Apprentice section, is about foundational magical skills that prepare the magician for more advanced work. The Apprentice section of the Quareia training contains ten modules. Book One contains the first two modules of the Quareia Apprentice training and covers core skills, and patterns and maps in magic. Quareia, the new school of magic for the 21st century, was a concept created by adepts Josephine McCarthy and Frater Acher; two European magicians with solid magical reputations in their respective fields. The curriculum of Quareia, written by Josephine McCarthy, takes a magical apprentice from the beginning of magic to the level of adeptship and beyond. It is most extensive, in-depth, and intelligent up to date magical course that is currently available worldwide. Josephine McCarthy is a magical adept, teacher and author from the UK. Josephine has been teaching magic intensively for over twenty years in the USA and Europe, and her many books on magic include the Magical knowledge series.
